

Here are directions for getting on the Act 250 list server that will allow you to follow and comment on the request to include the trash fleet, truck hubs and administrative operations under a different permitting process.

This is a step by step guide to placing your name on the email list server that provides information about whether there is a need for Casella to permit the fleet of trucks it uses to transfer trash from the transfer stations (Solid Waste District temporary landfills) or NOT. The list server provides information about the issue.

Around May 15<sup>th</sup> or so Casella will most probably produce reasoned comments about why a permit is not needed. On May 22<sup>nd</sup> the public can comment on Casella's viewpoints and provide testimony regarding the impacts regarding the currently unpermitted aspects of the Trash Fleet operation. Commenters can write an opinion on the need for permitting.

1. Address your email to Gina St. Sauveur at  
NRB.Act250StJ@vermont.gov.
1. In the subject line copy & paste Jurisdictional Opinion  
Request # JO 7-287

In the message space copy and paste the following message

Ms. Sauveur,

Please place my name on the e-mail list server for Jurisdictional Opinion # Jo7-287, NEWSVT, Coventry, VT; Casella Waste Management , Statewide.

I want to follow the Jurisdictional review and possibly comment during the comment review period.

My name is \_\_\_\_\_ and my email address is \_\_\_\_\_ .

*2. Fill in your name and town*

Please confirm my placement on the email list via a reply.

3. Hit send and make sure you get a reply

4. You should receive emails from the NRB regarding the permitting process
5. By May 15<sup>th</sup> you will receive Casella's opinion about permitting.
6. After you read Casella's remarks consider providing comments regarding your experiences with some aspect of the unpermitted portions of Casella's solid waste operation.
7. Commenting guides are available on [nolakedump.com](http://nolakedump.com)
