

Traffic Related Guide

Mr. Brondyke, I am commenting on Jurisdictional Opinion Request # JO 7-287(JOR). My name is _____ and my residence is in town or village. I have followed the landfill issue and have read Casella's comments regarding the JOR. I wish to make the following remarks regarding their comments and my opinion about Casella's need to apply for a permit for a greater part of it solid waste operation.

1. After reading Casella's comments take one to offer an opinion about, rebut, or agree with.
2. Next, write about what you see as problems the Trash Fleet causes regarding the volume of traffic, traffic flow, the need for more road maintenance, inadequate road design for passing, safe pullover, and bike use on the roads. If you are a village or town resident you could address the need for safe pedestrian areas, boundaries for bikes and pedestrians marked clearly or barriers installed. Just think about the roads and something will come to you.
3. Copy your comments into the Agency of Natural Resources list server email you received about Casella.
4. In the subject line put Jurisdictional Opinion Request # JO 7-287,
5. Hit Reply to All
6. You are now part of the official record.
